Dear Schools and Libraries Division Representative,

This letter is in response to the September 18, 2009 letter we received from you regarding our Application 698783. In that letter you referred to a previous notice from you dated June 5, 2009. The June 5<sup>th</sup> letter stated that rules required you to hold our application pending final review of those applications that were filed within the filing window. We did not yet receive a "denial" letter regarding this application. Please consider approving this application for the following reasons.

1. The January 15<sup>th</sup> deadline date for filing Form 470 was inadvertently missed. We are a small school with limited staffing and huge workloads. Some of the staff involved in this process were absent in the weeks prior to this deadline. Lack of experience also contributed to this problem.
2. It would serve the public good if this request would be approved. Telecommunication services to our school of 180 students would improve the quality of education and safety of our schools.
3. We are a small Christian school that receives very little public funding. Our students do not benefit from tax money as do their public school counterparts. More than 98% of our funding of our operating budget comes from parent's tuition and donations.

Sincerely,

John Van Der Brink  
Principal
